Do not forget to register for the tutorial of your choice!

**Monday 2 September: Tutorials: [Click here](#)**

- TUTORIAL N° 1: [GaN Transistors as an Enabler of High-Performance Power Electronics](#)  
(Morning)
- TUTORIAL N° 2: [Design of High efficiency Electric Motors and Power Electronic Drives with Wide Bandgap Devices \(SiC and GaN\)](#)  
(Afternoon)
- TUTORIAL N° 3: [Prospects for Condition Monitoring Implementation in SiC Power MOSFETs](#)  
(Full Day)
- TUTORIAL N° 4: [MMC-based Converters for MVDC Applications](#)  
(Full Day)
- TUTORIAL N° 5: [Smart Battery Pack Solutions with Lithium-ion Batteries](#)  
(Full Day)
- TUTORIAL N° 6: [Insulation and Coordination Design Steps for Medium Voltage Power Electronics Applications](#)  
(Afternoon)
- TUTORIAL N° 7: [Modular high frequency high voltage power supply: architectures, circuit modeling methodologies and output voltage sharing technologies](#)  
(Morning)
- TUTORIAL N° 8: [Model Predictive Control of Power Converters: Principle, Design and Applications](#)  
(Full Day)

**Tuesday 3 – Thursday 5 September: Main Conference Days:**

- ***Technical programme AVAILABLE: [Click here](#)***
- ***Keynotes: [Click here](#)***
- ***Industrial forum: [Click here](#)***

**Friday 6 September : Technical visits: [Click here](#)**

**Exhibition : Plan your participation: Check for updated information at**

**Tuesday 2 – Thursday 5 September:**

**Technical programme:** [Click Here](#)

**Keynotes:** [Click Here](#)

Our outstanding speakers:

- *Marco Venturini, CEO of Phase Motion Control S.p.A.*
- *Paolo Bordignon, Executive Vice President, R&D Coordination and Technology, Rongxin HUIKO Electric Technology Co.,Ltd*
- *Univ.-Prof. Antonello Monti, PhD, Director of the Institute for Automation of Complex Power Systems. E.ON Energy Research Center, RWTH Aachen University*
- *Xavier ROBOAM, Université de Toulouse, LAPLACE (CNRS/INPT/UPS), Toulouse*

**Industrial Forum:** [Click Here](#)

The sessions:

- *Future challenges for electric vessels and ports: industry prospective*
- *Status and challenges of GaN technology*
- *SiC Industrial Forum: "From the high end niche to the main stream – cranking up the volume"*
- *Recommended Practice for Hardware-in-the-Loop (HIL) Simulation Based Testing of Electric Power Apparatus and Controls*
