## 2 EPE'20 ECCE Europe, Lyon, France, 7 - 11 September 2020

Become an exhibitor at EPE'20 ECCE Europe!

### Why should your company exhibit at EPE'20 ECCE Europe?

EPE ECCE Europe is the largest Power Electronics event in Europe.

Like no other event, this conference is a unique balance between industry and academia.

It is your opportunity to meet developers and specialists from academia and to be informed of the latest technologies in your fields of expertise (before anyone else).

Do you want to join us? Make sure to complete the exhibitor application on time:

### 4 Exceptional achievement Awards: Frede Blaabjerg

**Two Outstanding Awards for our colleague and EPE Committee member: Prof. Frede Blaabjerg**

Two exceptional awards have been bestowed on Prof. Frede Blaabjerg: the “IEEE Edison Medal” and the “The International Energy Prize”.

#### The International Energy Prize

The Global Energy Prize annually honours outstanding achievements in energy research and technology from around the world that are helping address the world’s various and pressing energy challenges. The Global Energy Prize, founded in 2002, is awarded to the most accomplished minds in the research world. The honourees are awarded the Global Energy Prize along with a prize of RUB 39 million. <https://globalenergyprize.org/en/laureates/2019>

#### The IEEE Edison Medal

On 11 February 1904, a group of Mr. Edison's friends and associates created a medal in his name to commemorate the achievements of a quarter of a century in the art of electric lighting. In their words, "The Edison Medal should, during the centuries to come, serve as an honourable incentive to scientists, engineers, and artisans to maintain by their works the high standard of accomplishment set by the illustrious man whose name and feats shall live while human intelligence continues to inhabit the world."

The medal is awarded for a career of meritorious achievement in electrical science, electrical engineering, or the electrical arts. <https://www.ieee.org/about/awards/medals/edison.html>

The “IEEE Edison Medal” and in particular “The International Energy Prize” are highly acknowledged in our society and we congratulate Prof. Frede Blaabjerg for this outstanding achievement!
